Beşler Kuruyemiş AŞ was established in 1991 located in Isparta / Turkey. Korkmazlar AŞ that was the leading nuts producer in Turkey since 1935 took over the 90% share of Beşler Kuruyemiş AŞ IN 2007. By doing so Beşler Kuruyemiş became one of the leading producers in Turkish market. Three generations know-how of the Korkmazlar was transferred and Beşler penetrated the local market with unique products and established strong-worldwide networks via efficient overseas strategies. Our chocolate brands, Chocovia and Dojo, are well known brands with high quality and high sales volume in Turkey and overseas. We do bulk basis chocolate dragees, special/praline chocolate and special packed chocolate products and sell in Turkey and export to more than 35 countries worldwide. We employ projects with leading chain stores and boutique stores of the global brands. Especially our Chocovia brand is visible in High Street stores especially in USA, Canada, Europe, Singapore, Australia and Hong Kong. We still work on the lead generations for the new markets while update our product range according to the market demands. With the food processing technology, experienced staff, strong capital and well established network, day by day Beşler Kuruyemiş improves its product quality and enters to new markets in a competitive manner. Our production area is 9600 m² indoor and 16000 m² in total. Our production capacity of chocolate and roasted nuts is approximately 30 tonnes per day. To ensure high quality and exceptional food safety, we obtained BRC, IFS, ISO 9001, ISO 14000, ISO 22000, and Halal certificates. Our production can be traced in every steps from raw material to end product. We invest on R&D in a continuous manner to introduce new products to the snack market.
